MOTION FOR ORDER UNDER 11 U.S.C. § 365 AND  
FED. R. BANKR. P. 6006 AUTHORIZING REJECTION OF CERTAIN  
EXECUTORY CONTRACTS WITH GENERAL MOTORS CORPORATION

("GM CONTRACT REJECTION MOTION NO. 1")

Delphi Corporation ("Delphi") and certain of its subsidiaries and affiliates, debtors and debtors-in-possession in the above-captioned cases (collectively, the "Debtors"), hereby submit this motion (the "Motion") for an order under 11 U.S.C. § 365(a) and Fed. R. Bankr. P. 6006 authorizing the Debtors to reject 5,472 executory contracts with General Motors Corporation ("GM") identified on Exhibit A hereto with ten days' notice to GM, GM's counsel, and the Official Committee of Unsecured Creditors, upon service of a notice in the form attached as Exhibit B hereto (a "Rejection Notice"). In support of the Motion the Debtors rely upon the declaration of Randall S. Eisenberg, executed on March 31, 2006 (the "Eisenberg Dec."). In support of the motion the Debtors also rely upon the declarations of John D. Sheehan (the "Sheehan Dec.") and Mark Weber (the "Weber Dec."), each executed on March 31, 2006, in support of the Debtors' Motion For Order Under 11 U.S.C. § 1113(c) Authorizing Rejection Of Collective Bargaining Agreements And Under 11 U.S.C. § 1114(g) Authorizing Modification Of Retiree Welfare Benefits (the "Section 1113 Motion"), filed contemporaneously herewith. In further support of this Motion, the Debtors respectfully represent as follows:

Introduction

1. To undergo a successful reorganization and emerge as a viable enterprise, the Debtors have determined that they must restructure unprofitable supply relationships with GM. The Debtors need GM to cover a greater portion of the costs of manufacturing products for GM at plants that bear the burden of the Debtors' legacy costs. The Debtors have studied the deteriorating financial health of their U.S. operations and have identified 21 operational sites that (a) currently generate significant, and increasing, operating losses and (b) primarily produce parts for GM vehicles (the "GM

Loss Plants"). By this Motion, the Debtors request authority to reject those executory supply contracts with GM that relate to the GM Loss Plants (the "GM Loss Contracts").

2. The Debtors base this Motion on their business judgment that (a) performing under the current terms of the GM Loss Contracts generates significant operating losses and is effectively draining the assets of the estates and (b) the Debtors have a duty to their creditors and other stakeholders to stop supplying GM at a loss and to renegotiate fair and reasonable terms under which they will produce parts for GM. The Debtors expect, and intend, no disruption in their supply to GM of parts essential to GM's manufacturing operations. Instead, the Debtors intend to negotiate in good faith a resolution that assures GM of continuous supply while fairly preserving the value of the estates for all parties-in-interest. The Debtors anticipate that the Motion will be heard at the May 12, 2006 omnibus hearing and are filing the Motion with 42 days' notice (instead of the 20 days' notice provided in the case management order) to facilitate continued negotiations between the Debtors and GM.

3. The Debtors' U.S. operations have continued to generate large operating losses since the Debtors first sought chapter 11 relief in this Court on October 8, 2005. The mounting losses in Delphi's U.S. operations are attributable to three principal factors: (a) GM-inherited labor agreements have caused an enormous increase in Delphi's labor and benefit costs since 1999, including the legacy retirement liabilities arising under those agreements, and have limited Delphi's ability to respond to economic changes in the U.S. automobile industry by selling or closing unprofitable or non-core facilities, (b) the increasingly competitive environment facing U.S. automakers over the last five years has substantially reduced GM's market share and profitability, resulting in

dramatically reduced revenue and greater pricing pressure for Delphi, and (c) rapidly rising commodity prices have significantly increased Delphi's manufacturing costs, because Delphi has been unable to pass along those increased costs to its customers.

4. To stem these losses and achieve a successful reorganization, Delphi has adopted a restructuring plan with five key elements:

- Modifying its labor agreements to create a competitive arena in which to conduct business going forward;
- Concluding negotiations with GM to finalize GM's financial support for the legacy costs Delphi currently carries and to ascertain GM's business commitment to Delphi going forward;
- Streamlining its product portfolio to capitalize on Delphi's world class technology and market strengths, and making the necessary manufacturing alignment with this new focus;
- Transforming its salaried workforce to ensure that Delphi's organizational and cost structure is competitive and aligned with its product portfolio and manufacturing footprint; and
- Devising a workable solution to its pension funding obligations by reducing its contributions to manageable levels.

5. Delphi would prefer to achieve a consensual resolution with GM, its largest customer and former parent, and its unions. Although there has been recent progress in discussions with the company's unions and GM, particularly on the UAW Special Attrition Programs, the parties have not yet reached comprehensive agreements. Indeed, efforts to achieve a consensual solution or receive sufficient interim financial support to mitigate the escalating losses under GM customer contracts have so far been unsuccessful. The Debtors must therefore take concerted actions to address these issues and cannot continue to supply parts to GM at a loss. Consequently, the Debtors are filing two motions: their Section 1113 Motion seeking authority to reject U.S. labor agreements

and modify retiree benefits,<sup>1</sup> and this Motion to reject unprofitable supply contracts with GM.

6. This Motion represents the Debtors' first step in their efforts to restructure their contractual relationships with GM.<sup>2</sup> Rejecting the GM Loss Contracts will provide the Debtors the opportunity to negotiate reasonable terms that will stem losses, fairly allocate risks, and position the Debtors to become a viable business in the auto-component supply industry. (At the same time, the Debtors are pursuing good faith negotiations with GM to establish reasonable terms for renewing recently expired GM supply contracts.) Together, this Motion and the Section 1113 Motion address an intolerable situation: the Debtors have been forced to subsidize GM's manufacturing operations by supplying GM at a loss due to operational obligations and restrictions inherited from GM itself.

7. That the Debtors seek this relief should come as no surprise to GM. On the initial filing date, GM issued a press release disclosing the possibility that Delphi "may reject or threaten to reject individual contracts with GM . . . in an attempt to increase the price GM pays for certain components or parts." General Motors Corp. Form 8-K dated October 8, 2005. The time has come for the Debtors to avail themselves of the protections Congress provided in section 365(a) of the Bankruptcy Code, in the best interests of their estates, their creditors, other stakeholders, and the reorganization

---

<sup>1</sup> Relief under the Section 1113 Motion will not only lower labor costs, but also free the Debtors to sell or wind down unprofitable businesses consistent with their restructuring plans.

<sup>2</sup> The Debtors' review of both GM and non-GM executory contracts is ongoing and they reserve their right to file additional rejection motions under section 365(a) of the Bankruptcy Code if appropriate in the best interests of their estates, creditors, and other stakeholders.

process. As explained fully herein, the Debtors satisfy all of the statutory prerequisites for this relief.

### Background

#### A. The Chapter 11 Filings

8. On October 8, 2005, Delphi and certain of its U.S. subsidiaries filed voluntary petitions in this Court for reorganization relief under chapter 11 of title 11 of the United States Code, 11 U.S.C. §§ 101-1330, as amended (the "Bankruptcy Code"). On October 14, 2005, three additional U.S. subsidiaries of Delphi filed voluntary petitions in this Court for reorganization relief under the Bankruptcy Code. The Debtors continue to operate their businesses and manage their properties as debtors-in-possession pursuant to sections 1107(a) and 1108 of the Bankruptcy Code. This Court entered orders directing the joint administration of the Debtors' chapter 11 cases.

9. On October 17, 2005, the Office of the United States Trustee (the "U.S. Trustee") appointed an official committee of unsecured creditors (the "Creditors' Committee").

10. This Court has jurisdiction over this matter pursuant to 28 U.S.C. §§ 157 and 1334. Venue is proper pursuant to 28 U.S.C. §§ 1408 and 1409. This matter is a core proceeding under 28 U.S.C. § 157(b)(2).

11. The statutory predicates for the relief requested herein are section 365 of the Bankruptcy Code and Fed. R. Bankr. P. 6006.

#### B. Current Business Operations Of The Debtors

12. Delphi is one of the world's largest suppliers of vehicle electronics and transportation components, with global revenue of \$28.6 billion in 2004 and an

estimated \$26.9 billion in 2005.<sup>3</sup> See Sheehan Decl. ¶ 24. As of the Initial Filing Date, Delphi ranked as the fifth largest public company business reorganization in terms of revenues, and the thirteenth largest public company business reorganization in terms of assets. Delphi and its subsidiaries operate in 34 countries, with some 184,000 employees, 163 manufacturing sites, 39 joint ventures, and 32 technical centers. Delphi's international operations are conducted through foreign subsidiaries and affiliates in Mexico, South America, Europe, the Middle East, Asia, and Australia. Delphi's non-U.S. subsidiaries are not chapter 11 debtors, will continue their business operations without supervision from the Bankruptcy Court, and will not be subject to the requirements of the Bankruptcy Code.

13. Within the United States, Delphi has approximately 47,400 employees at 41 manufacturing sites (including idled facilities) in 15 states, 13 technical centers, and its world headquarters in Troy, Michigan.

14. Delphi designs and manufactures products for every major original equipment manufacturer – known as "OEMs" or "assemblers" – in the world. Delphi's products represent one of the widest ranges of auto parts manufactured by any independent parts supplier, ranging from complex electronic systems to simple commodity components. Until the first quarter of 2005, Delphi's sales to its former parent GM constituted more than half of its revenue. By the end of 2005, however,

---

<sup>3</sup> With the exception of 2004 consolidated financial information, all financial data referenced herein is unaudited financial information derived from the books and records of Delphi. Certain financial information has not been subject to procedures typically applied to financial information presented in accordance with generally accepted accounting principles in the United States and upon the application of such procedures, the financial information could be subject to changes, and these changes could be material.

Delphi's total revenue from GM had declined from \$22.3 billion in 1999 to approximately \$12.8 billion, while Delphi's non-GM revenue had increased from \$6.9 billion in 1999 to approximately \$14.1 billion. See Sheehan Dec. ¶ 9. Delphi's non-GM business included sales to other OEMs, including Ford, Chrysler, Renault/Nissan Motor Co., Volkswagen Group, and Toyota Motor Corp.; sales of service replacement auto parts through the independent "aftermarket"; sales of consumer products such as non-automotive heating and cooling systems, mobile video, satellite radio, and other audio entertainment systems; and sales of medical, broadcasting, and aerospace products. See Sheehan Dec. ¶ 10.

C. Events Leading To The Chapter 11 Filings

15. In the first two years following Delphi's separation from GM, Delphi performed well financially, earning net income of \$1.0 billion in 1999 and \$817 million in 2000. Every year thereafter, however, with the exception of 2002, Delphi has suffered substantial losses. In calendar year 2004, Delphi reported a net operating loss of \$482 million on \$28.6 billion in net sales. In 2005, Delphi had a net loss of \$2.8 billion and an net operating loss of \$2.5 billion on revenues of \$26.9 billion — a decline of \$1.7 billion in sales over the previous year. See Sheehan Dec. ¶ 24; Eisenberg Dec. ¶ 8.

16. The Debtors believe that three significant issues have largely contributed to the deterioration of their financial performance: (a) increasingly unsustainable U.S. legacy liabilities and operational restrictions driven by collectively bargained agreements, including restrictions preventing the Debtors from exiting non-strategic, non-profitable operations, (b) a competitive U.S. vehicle production environment for domestic OEMs resulting in the reduced number of motor vehicles that

GM produces annually in the United States and related pricing pressures, and (c) increasing commodity prices that have raised the Debtors' production costs at the same time that GM and other U.S. OEMs have demanded price decreases.

17. In light of these factors, Delphi determined that it would be imprudent and irresponsible to defer addressing and resolving its U.S. legacy liabilities, product portfolio, operational issues, and forward looking revenue requirements. Having concluded that pre-filing discussions with its unions and GM were not leading to the implementation of a plan sufficient to address the Debtors' issues on a timely basis, Delphi determined to commence these chapter 11 cases for its U.S. businesses to complete the Debtors' transformation plan and preserve value.

D. Delphi's Supply Relationship With General Motors

18. For most of its history, GM manufactured a large proportion of the parts used in its vehicles. In 1991, GM combined its parts manufacturing facilities into a single parts division. GM incorporated that division as Delphi, a wholly-owned subsidiary, on January 1, 1999. GM subsequently spun off Delphi as a publicly-held corporation in May 1999 (the "Spin-Off").

19. Delphi identified several reasons for supporting the Spin-Off decision, as reflected in the Form S-1 registration statement that preceded the Spin-Off. First, GM believed that the internal competition by its OEM and component businesses for GM's capital resources was not sustainable. Accordingly, GM determined that its capital was best devoted to investing in the automobile manufacturing business, and not the component business in which Delphi was engaged. See Weber Dec. ¶ 6.

20. Second, GM hoped to reduce its costs for components by forcing its primary supplier to compete with other independent suppliers. Independent suppliers must compete for business from a variety of OEMs and other parts suppliers. Thus, GM believed that Delphi would operate more efficiently if forced to compete. In particular, GM recognized that independent suppliers had significantly lower wage and benefit costs than GM, and it anticipated that Delphi could reduce its labor costs by negotiating independently from GM. To date, however, consensual labor negotiations have not led to a reduction of labor costs to sustainable levels. See Weber Dec. ¶ 7.

21. Finally, GM believed that the Spin-Off would maximize the value of Delphi to GM's shareholders because Delphi would be in a better position to compete for business from other OEMs. Although Delphi began pursuing such business in the mid-1990s as a division of GM, Delphi was basically a captive supplier to GM's U.S. assembly plants, which provided 80% of Delphi's revenue. GM and Delphi believed that many potential customers were reluctant to do business with another OEM. See Weber Dec. ¶ 8.

22. Both GM and Delphi recognized, however, that a number of the product lines transferred to the Debtors at the time of Spin-Off were not competitive, and one of the business objectives from the outset was to fix, sell, or close those unprofitable operations. See Weber Dec. ¶ 12. The Debtors have been prevented, however, from selling, closing, or consolidating facilities without union consent under the GM-patterned labor agreements that Delphi inherited.

23. As a result of the manner in which Delphi was created, and the restrictions under which the Debtors' operations have been constrained, the Debtors'

products do not represent a unified, strategic vision. Instead, they include substantially all of the products that GM elected to place into the Debtors' businesses at the time of the Spin-Off. A number of these product lines are essentially commodity products subject to increasing foreign price competition, meaning that the Debtors could not expect to sustain a profit in these businesses even with reduced labor costs. More importantly, however, in their current financial condition, the Debtors cannot afford to commit their scarce capital and engineering resources to all of their product lines. To restructure successfully, the Debtors have determined that they must reject certain money-losing contracts and divest or exit a number of businesses.

24. Delphi anticipated in September 1999 that it could remain viable, despite adoption of the GM labor agreements, if it could maintain its GM revenues of \$22 billion, substantially expand its non-GM revenue, and replace its high-wage, traditional employees who "flowed back" to GM with lower-cost, new hire employees, allowing Delphi to lower its labor costs gradually over time. Neither of these expectations was fulfilled. Delphi's revenues from GM fell from \$22.3 billion in 1999 to \$12.8 billion in 2005. Delphi's profits from its GM business have tumbled even further, however, as GM has put increasing pressure on Delphi to provide "price-downs" — that is, year-over-year reductions in Delphi's price for the same product. Although annual price-downs are a standard industry practice, GM has been particularly aggressive, demanding significant price-downs on new contracts, or conditioning new business on Delphi's willingness to provide substantial price-downs under its existing supply contracts. At the time of the Spin-Off, Delphi estimated that its total price-downs over the foreseeable future would average 1.6 percent of sales. See Weber Dec. ¶ 14. Since 1999, Delphi's actual price-

downs under its GM supply agreements have averaged 2.1 percent per year. Since the Spin-Off, Delphi has been required to reduce its year-over-year prices on GM business by 50 percent more than the price reductions required by its other OEM customers. See Sheehan Dec. ¶ 43. With respect to flow-backs, the Debtors' anticipated workforce reductions never fully materialized because, among other things, GM's North America market share declined significantly, thereby limiting the opportunity for employees to flow back to GM.

25. Delphi's losses since 2003 stem from its U.S. operations. Delphi's U.S. manufacturing sites, collectively, had operating losses of \$700 million in 2003, \$1.6 billion in 2004, and \$2.2 billion in 2005, while its non-U.S. businesses had operating income of \$800 million in 2003, \$1.1 billion in 2004, and an estimated \$700 million in 2005. See Sheehan Dec. ¶¶ 25, 26. When reviewed as a percentage of revenue, the divergence between Delphi's U.S. and non-U.S. operations is stark. Delphi's operating income of \$700 million from its non-U.S. operations in 2005 represented a profit of 4.6 percent on \$15.3 billion in revenue, whereas Delphi's operating loss of \$2.2 billion in the U.S. represented a 19.1 percent loss on \$11.5 billion in U.S. revenue. See Sheehan Dec. ¶ 29 and Ex. D. Direct sales to GM constituted more than 63% of Delphi's North American sales revenue in 2005. See Eisenberg Dec. ¶ 10.

E. Delphi's Business Structure

26. Delphi is organized into three sectors: Electrical, Electronics, and Safety ("EE&S"), Dynamics, Propulsion, Thermal, and Interior ("DPT&I"), and Automotive Holdings Group ("AHG"). Each sector has one or more operating divisions. See Sheehan Dec. ¶ 12.

27. EE&S has three operating divisions: Electronics and Safety ("E&S"), Delphi Product and Service Solutions, and Delphi Packard Electric Systems. EE&S generated revenue of \$13.4 billion and operating income of \$133 million in 2005. EE&S is the only sector within Delphi that has been consistently profitable, although its profitability has been declining. See Sheehan Dec. ¶ 13. Only two of the 21 GM Loss Plants at issue in this Motion fall within the EE&S businesses.

28. DPT&I also has three operating divisions: Delphi Thermal and Interior ("T&I"), Delphi Steering ("Steering"), and Delphi Energy and Chassis ("E&C"). DPT&I had \$12.6 billion in revenue in 2005 and an operating loss of approximately \$1.3 billion for the year (including an \$856 million loss in its North American operations). See Sheehan Dec. ¶ 18. The E&C division produces a variety of vehicle components. In particular, its braking systems business, which is heavily dependant on GM, functions under a significant number of money-losing supply contracts. Included among the GM Loss Contracts at issue in this Motion are contracts relating to five GM Loss Plants in the E&C division, five GM Loss Plants in the T&I division, and one plant in the Steering division.

29. AHG is the least profitable of Delphi's three sectors. In fact, Delphi purposefully grouped money-losing operations under the AHG umbrella in October 2002 to target management's focus on finding solutions to, or divesting, these operations. The products it manufactures tend to be commodities, such as brakes, batteries, oil filters, spark plugs, generators, shock absorbers, hoses, and moldings, and GM sales account for approximately 55% of these sales. See Sheehan Dec. ¶ 22. AHG has not made a profit since it was created — its businesses experienced an operating loss

of \$1.1 billion in 2004 and \$1.2 billion in 2005. Absent successful restructuring initiatives, the Debtors expect that AHG's losses will be greater in 2006. See Sheehan Dec. ¶ 22. Included among the GM Loss Contracts at issue in this Motion are contracts relating to eight GM Loss Plants within AHG.

Relief Requested

30. By this Motion, the Debtors that are parties to unprofitable GM contracts seek authorization to reject those executory contracts with GM that relate to the following 21 U.S. manufacturing operations, each of which generates negative operating income and primarily produces parts for GM vehicles.<sup>4</sup> These sites are projected to generate \$2.1 billion in operating losses in 2006:

---

<sup>4</sup> All but ten of the 5,472 contracts listed on Exhibit A relate to these 21 plants. The ten additional contracts relate to unprofitable GM parts produced at the Sandusky plant, which is the only plant that was included in the first phase of the Debtors' loss contract analysis, as described below, but not in the second phase. See ¶¶ 43, 52 below.

	PLANT/ SITE	DIVISION
1	Saginaw	Steering
2	Saginaw	E&C
3	Lockport	T&I
4	Kokomo	E&S
5	Rochester	E&C
6	Milwaukee	E&C
7	Flint East	AHG
8	Athens	AHG
9	Milwaukee	E&S
10	Needmore	AHG
11	Kettering	AHG
12	Columbus	T&I
13	Moraine	AHG
14	Control Heads	T&I
15	Home Avenue	AHG
16	Flint Clusters	AHG
17	Grand Rapids	E&C
18	Direct Ship Thermal <sup>5</sup>	T&I
19	Adrian	T&I
20	Anderson Ignition	AHG
21	Wichita Falls	E&C

The Debtors have studied the historical and projected profitability of these plants and have concluded, in their business judgment, that the rejection of the executory supply contracts with GM involving these plants is in the best interests of the Debtors' estates and preferable to performing under the terms of the contracts. The Debtors cannot successfully reorganize absent relief from the burdensome executory contracts at issue in this Motion. If the Court grants the relief requested in this Motion, the Debtors' estates stand to benefit immediately through the opportunity to renegotiate GM supply agreements in a reasonable and equitable manner.

---

<sup>5</sup> "Direct Ship Thermal" is not a manufacturing site per se but rather an internal accounting reference for contracts between GM and the Debtors pursuant to which the Debtors arrange for the direct shipment to GM of parts manufactured by third parties.

31. The GM Loss Plants produce GM parts pursuant to thousands of separate contracts. To date, the Debtors have identified, by GM part number, purchase order ("PO") number, and plant, approximately 5,472 of these contracts, which are identified on Exhibit A hereto.<sup>6</sup> The Debtors are continuing to identify additional executory contracts at the GM Loss Plants and reserve the right to file additional contract rejection motions if appropriate under the circumstances. In this Motion, the Debtors seek authority to reject the GM Loss Contracts that have been identified to date and that are set forth in Exhibit A. As reflected in the Proposed Order filed herewith, the Debtors propose that they be authorized to reject GM Loss Contracts with ten days' notice to GM, GM's counsel, and the Creditors' Committee by issuing one or more notices of the form set forth in Exhibit B. This procedure will afford GM adequate notice of rejection, and thus meets the requirements of section 365 of the Bankruptcy Code.

32. The Debtors have concluded in their informed business judgment that they should not continue to subsidize GM's parts under the current terms of the GM Loss Contracts to the detriment of the Debtors' estates and their other creditors. The factual basis for this business judgment is set forth herein.

#### Basis For Relief

##### A. The Debtors' Deteriorating Financial Condition

33. Delphi's non-U.S. businesses — which in most cases are separate legal entities under the direction of local management — are generally competitive with their peers and generated operating income of \$800 million in 2003, \$1.1 billion in 2004,

---

<sup>6</sup> The Debtors' review to date indicates that all of the contracts listed on Exhibit A are executory in nature. The inadvertent inclusion of any non-executory contract on Exhibit A, however, does not constitute an admission by any of the Debtors that the applicable Debtor has any remaining obligations or liability under such a contract.

and \$700 million in 2005. Accordingly, none of Delphi's foreign subsidiaries is a debtor in these chapter 11 cases and Delphi does not plan to commence any reorganization, bankruptcy, or insolvency cases outside the United States. Instead, Delphi's losses stem from the Debtors' U.S. operations. The Debtors' U.S. manufacturing sites, collectively, had operating losses of \$700 million in 2003, \$1.6 billion in 2004, and \$2.2 billion in 2005. See Sheehan Dec. ¶¶ 25, 26.

34. When reviewed as a percentage of revenue, the difference between Delphi's foreign and U.S. operations is even more extreme. Delphi's operating income of \$700 million from its non-U.S. operations represented a profit margin of 4.6 percent on \$15.3 billion of revenue, whereas Delphi's 2005 operating loss of \$2.2 billion in the U.S. represented a loss of 19.1 percent on \$11.5 billion in U.S. revenue. See Sheehan Dec. ¶ 29 and Ex. D.

35. Delphi's U.S. operations have continued to lose money in the postpetition period. As the Debtors' Monthly Operating Reports indicate, the Debtors have incurred approximately \$991 million in operating losses from October 8, 2005 through February 28, 2006.

B. The Debtors' Analysis Of Loss Contracts

36. The Debtors currently supply parts to GM and other OEMs under tens of thousands of separate part-specific contracts that take the form of purchase orders. The Debtors' shipment of component parts to GM is triggered by GM's issuance of releases or specified delivery schedules under the POs. The POs specify parts and price terms for an express time period, but generally do not establish specific supply quantities. The GM Loss Contracts contain or incorporate by reference standard terms and

conditions under which GM deals with its various suppliers, including Delphi. See Eisenberg Dec. ¶ 12.

37. After filing these chapter 11 cases, and consistent with the core purpose of section 365(a) of the Bankruptcy Code, the Debtors' management initiated a comprehensive review of the profitability of the Debtors' executory contracts. Based on initial estimates of the approximate magnitude of losses resulting from GM supply contracts, the Debtors attempted to negotiate with GM a macro-level solution to help mitigate the negative impact of unprofitable pricing levels. Although GM has agreed to temporarily suspend certain additional price-downs in 2006, GM has refused to compensate Delphi in any manner that provides substantial relief for the financial burden imposed by unprofitable GM supply contracts. See Sheehan Dec. ¶ 70.

38. The Debtors' restructuring and financial advisor, FTI Consulting Inc. ("FTI"), assisted the Debtors in their loss contract analysis. To date, this analysis has proceeded in two phases.

1. Phase One: Profitability Analysis Of Four Plants On A Part-Specific Basis

39. During the first phase of the Debtors' review of their executory contracts ("Phase One"), FTI assisted the Debtors in developing a methodology to analyze profitability on a part-by-part basis, based on several metrics, including but not limited to contribution margin, factory profit, and operating income. The Debtors initiated a review of profitability by customer part number, to determine whether any contracts related to unprofitable parts merited rejection. See Eisenberg Dec. ¶ 19.

40. Phase One of the loss contract analysis focused on four plants located in Dayton, Ohio ("Needmore" and "Home Avenue"), Sandusky, Ohio

("Sandusky"), and Saginaw, Michigan ("Saginaw"). These plants produce brake-related components for GM and GM Tier 1 suppliers. Products intended for GM vehicles represent the majority of the sales revenue in each of the plants. See Eisenberg Dec. ¶¶ 19-20. None of the plants has produced positive operating income at the plant level since 2004. See Eisenberg Dec. ¶ 19.

41. Needmore has long been one of Delphi's most unprofitable U.S. plants, and for that reason, management placed Needmore within the AHG umbrella in January 2003. The Needmore site (referred to by its street location rather than its city) manufactures brake calipers, master cylinders, boosters, and drum brakes for the E&C division. GM and GM-tier sales accounted for approximately 58 percent of the plant's estimated 2005 revenue (including "allied" sales to other Delphi plants in the denominator). In 2004, the site had an operating loss of \$118.8 million on revenues of \$422 million, for a negative margin of 28.2 percent. In 2005, the site generated an estimated operating loss of \$144.5 million on estimated revenues of \$350.8 million for a negative margin of 41.2 percent. See Eisenberg Dec. ¶ 22.

42. The Sandusky site, part of the DPT&I sector, manufactures roller clutch bearings and wheel bearings for braking systems for the E&C division. In 2004, the site had an operating loss of \$5.7 million on revenues of \$376.7 million, for a negative margin of 1.5 percent. In 2005, the site generated an estimated operating loss of \$34.4 million on estimated revenues of \$360.8 million for a negative margin of 9.5 percent. See Eisenberg Dec. ¶ 22.

43. The Saginaw site, part of the DPT&I sector, manufactures chassis for the E&C division. GM-related sales account for more than 85 percent of its revenue.

In 2004, the site had an operating loss of \$5.6 million on revenues of \$1.28 billion, for a negative margin of 0.4 percent. In 2005, the site generated an estimated operating loss of \$65.8 million on revenues of \$1.04 billion, for a negative margin of 6.3 percent. See Eisenberg Dec. ¶ 22.

44. The Home Avenue site (referred to by its street location rather than its city), part of the AHG sector, manufactures engine mounts and brake hoses for the E&C division. GM-related sales account for more than 59 percent of its revenue. In 2004, this site had an operating loss of \$19.4 million on revenues of \$237.2 million, for a negative margin of 8.2 percent. In 2005, this site generated an estimated operating loss (excluding impairment charges) of \$48.3 million on revenues of approximately \$216.1 million for a negative margin of 22.4 percent. See Eisenberg Dec. ¶ 22.

45. From November 2005 through mid-February 2006, the Debtors, assisted by FTI, completed Phase One of the loss contract analysis. This involved the analysis of 3,157 parts manufactured at the four plants. FTI's analysis confirmed that the majority of the parts (2,353) were manufactured pursuant to direct supply contracts with GM. See Eisenberg Dec. ¶ 24.

46. The Debtors, assisted by FTI, made reasonable assumptions regarding allocations of costs to assess part-level profitability for the 3,157 parts produced by the four plants. Using November 2005 year-to-date data, the Debtors identified direct costs related to each part (such as standard costs related to material, freight, direct labor, and manufacturing overhead) and assigned such costs to their respective part based on each product's bill of materials. The Debtors also allocated certain manufacturing overhead indirect costs to each part based on time and effort

studies. Other indirect costs (such as engineering and selling, general, and administrative expense) were allocated to each part using a combination of time and effort studies (for allocations to product portfolio within plant) and sales activity (for allocations to part within product portfolio). The Debtors also made reasonable adjustments to account for inter-plant transactions. See Eisenberg Dec. ¶ 25.

47. Profitability analyses on a customer/part level identified 1,395 parts supplied to GM that resulted in negative operating income. These 1395 parts relate to 515 executory customer contracts with GM (listed in lines one through 515 of Exhibit A hereto). Operating income is the metric Delphi's management usually employs in assessing the viability of current and potential businesses. Together, these 515 contracts resulted in estimated negative operating income of approximately \$120 million in 2005. These 515 loss contracts also represent more than 80% of the sales revenue generated under all GM direct-supply contracts at the four plants. See Eisenberg Dec. ¶ 27.

48. The Phase One loss contract analysis was based on 2005 historical data and therefore it likely underestimates the continuing losses related to these contracts in 2006. See Eisenberg Dec. ¶ 28. Based on the Phase One analysis, the Debtors have concluded that it is in the best interests of the estates to reject these 515 contracts and to seek renegotiation of their terms with GM.

## 2. Phase Two: Analysis Of GM-Focused Loss-Generating Plants

49. In mid-February 2006, the Debtors postponed the schedule for filing the Section 1113 Motion to reject collective bargaining agreements until March 31, 2006, in order to continue to pursue good faith, tripartite negotiations with their unions and

GM. At the same time, the Debtors commenced the second phase of their loss contract financial analysis ("Phase Two").

50. The results of the Phase One analysis confirmed several facts that drove the Debtors' subsequent approach to the next phase of their analysis of loss-generating contracts. First, the Phase One analysis confirmed that the majority of the parts (1,395 of 2,353) produced for GM at the four plants generated operating losses. Second, whereas 1,395 of 2,353 GM parts generated approximately \$120 million of negative operating income in 2005, all 2,353 parts generated negative operating income of approximately \$108 million. This result indicated that the incremental and substantial burden of pursuing a part-by-part profitability analysis provides negligible added value when considered against the larger-scale issues of restructuring unprofitable supply arrangements with GM and stemming the drain on the Debtors' estates that these plants cause. Finally, the Debtors recognized that they do not have the luxury of proceeding with a part-by-part profitability analysis, because a substantial restructuring of the Debtors' supply relationship with GM cannot, as a practical matter, await the many months of intensive work that such an analysis would require. For all of these reasons, the Debtors pursued plant-wide financial analyses in Phase Two. See Eisenberg Decl. ¶ 29.

51. During Phase Two, the Debtors, assisted by FTI, gathered financial data from each U.S. manufacturing site, including break-downs of major categories of expenses that supported plant-wide operating profit/loss estimates and breakdowns of revenue by customer. Finance directors from all of the Debtors' divisions provided both actual 2005 data as well as data regarding the current 2006 budget. In the Phase Two

analysis, the Debtors continued to consider operating income to be the most reasonable and appropriate measure of the viability of current business lines and the sustainability of current contractual relationships. FTI assisted the Debtors in analyzing the data to isolate the subset of plants that (a) generate more than half of their revenue by supplying parts intended for GM vehicles to either GM or GM's Tier suppliers and (b) generated negative operating income in 2005. The Debtors determined that this analysis is an effective means to identify GM-focused plants that are draining the value of the Debtors' estates. Those are the "GM Loss Plants" that are the focus of this Motion. The following table summarizes the data gathered regarding the 21 GM Loss Plants (see Eisenberg Decl. ¶ 30):

**Table**  
**GM Loss Plant Summary (\$ millions)**

Plants/Sites	Division	Number of GM Contracts	% Sales to GM and Tier to GM*	2005 Actual		2006 Budget	
				Sales	OI**	Sales	OI
\$ in millions							
1 Saginaw <sup>1</sup>	Steering	978	79.6%	\$ 1,529	\$ (169)	\$ 1,469	\$ (296)
2 Saginaw	E&C	282	85.8%	\$ 1,042	\$ (66)	\$ 908	\$ (96)
3 Lockport	T&I	161	94.3%	\$ 953	\$ (127)	\$ 820	\$ (195)
4 Kokomo	E&S	1,091	84.0%	\$ 848	\$ (51)	\$ 670	\$ (26)
5 Rochester	E&C	197	83.9%	\$ 679	\$ (85)	\$ 621	\$ (88)
6 Milwaukee	E&C	19	85.5%	\$ 549	\$ (6)	\$ 444	\$ (34)

19 Adrian	T&I	57	89.8%	\$ 153	\$ (5)	\$ 151	\$ (32)
20 Anderson Ignition	AHG	57	76.9%	\$ 124	\$ (43)	\$ 95	\$ (69)
21 Wichita Falls	E&C	44	76.1%	\$ 70	\$ (29)	\$ 77	\$ (25)
<b>Total</b>		<b>5,462</b>	<b>81.8%</b>	<b>\$ 9,332</b>	<b>\$ (1,472)</b>	<b>\$ 8,216</b>	<b>\$ (2,096)</b>

\* Note - Calculation includes intercompany sales.

\*\*Note - 2005 OI excludes asset impairment charges.

Note 1 - Saginaw (Steering) excludes approximately \$41 million of divisional support costs that were allocated to other Steering regions for management reporting purposes.

Note 2 - 2006 Control Heads reflects debtor and non-debtor information, as the budget information is compiled from a total entity perspective.

52. In 2005, the GM Loss Plants generated estimated negative operating income of \$1.5 billion on sales revenue of \$9.3 billion. The GM Loss Plants are currently budgeted to generate negative operating income of \$2.1 billion on sales revenue of \$8.2 billion in 2006. See Eisenberg Dec. ¶ 31.

53. In addition to containing unprofitable price terms, the GM Loss Contracts also do not permit the Debtors to adjust prices equitably during the contract term in light of changing commodity or supply costs. The costs of the Debtors' raw materials — in particular oil, metals, and resins — have more than doubled since 1998. GM has required annual price-downs from Delphi during this same period. While GM typically reserves the right to cancel any purchase order at any time, the Debtors are obligated under the GM Loss Contracts to supply parts to GM at a set price for the entire duration of the contract period. These customer supply contracts typically range from one to three years but some contract terms exceed five years. See Eisenberg Dec. ¶ 14.

54. If granted the relief requested in the Motion, the Debtors will have the opportunity to not only readjust pricing, but also further protect the value of their estates by negotiating non-price terms that more equitably allocate risks between the Debtors and GM. For example, the Debtors would have the opportunity to seek contractual protections with respect to potential material cost increases, lower demand, or other factors that may increase the Debtors' cost of production during the contract period. Currently, the GM Loss Contracts offer little or no protection against adverse changes in circumstances and are burdensome for this additional reason. See Eisenberg Dec. ¶ 15.

E. The Lack of Progress In The Ongoing Discussions  
With GM And The Unions Also Affects the Debtors'  
Business Judgment To Reject The GM Loss Contracts

55. Delphi engaged in good faith negotiations with both GM and the unions representing Delphi's hourly workforce covered by the collective bargaining agreements at issue in the Section 1113 Motion prior to the commencement of these chapter 11 cases. Delphi's negotiations with GM and the unions have continued during the course of these cases in an effort to reach a consensual resolution to both labor and contract pricing issues. GM, however, has so far refused to compensate the Debtors for the losses the Debtors continue to incur under GM customer contracts. Following Delphi's Spin-Off, GM has consistently required annual price-downs, even though GM fully understood that its own purchasing volume from Delphi was declining and that, in recent years, raw materials costs — in particular steel and oil — were increasing substantially.<sup>1</sup> See Sheehan Dec. ¶¶ 42-43.

56. The lack of progress in negotiations with GM further supports the Debtors' business judgment that seeking the authority to reject the GM Loss Contracts will benefit the estates more than any alternative course of action. As debtors-in-possession, the Debtors are obliged to rid their estates of burdensome contracts and to act in the best interests of the estates and their creditors. The Debtors, along with their financial advisors, have determined that the GM Loss Plants are generating negative operating income and are primarily responsible for producing GM parts. Until the Debtors are empowered to fix, close, or sell these plants, however, and until Delphi is able to resolve the labor issues it inherited from GM, GM will continue to reap an

---

<sup>1</sup> In November 2005, GM did agree to temporarily suspend price-downs during 2006.

inequitable subsidy under the current terms of the GM Loss Contracts. The GM Loss Contracts require the Debtors to continue to operate the GM Loss Plants at a loss and to supply GM at prices that, due in large part to the Debtors' GM-inherited labor structure, are steadily draining value from the Debtors' estates. GM should not continue to benefit from the Debtors' performance under the GM Loss Contracts to the detriment of the Debtors' estates and their other creditors.

57. Repricing the GM Loss Contracts at issue in this Motion will contribute to the chances of a successful reorganization by helping to ensure adequate liquidity. See Eisenberg Dec. ¶ 11. Although the Debtors remain hopeful of reaching a consensual resolution with both GM and the unions, it is critical to the future of Delphi that these GM Loss Contracts be addressed immediately in order to stop selling products at a substantial loss. The Debtors are willing to continue shipping the products covered by the GM Loss Contracts in the future, so as to minimize any disruption to GM's business and to mitigate any damage claims arising out of the rejection of these contracts, if this can be accomplished at prices that are equitable to Delphi. Finally, should the Debtors' labor cost issues be resolved in the future, the Debtors will renegotiate pricing with GM to ensure that prices reflect labor restructuring changes.

58. On March 29, 2006, the results of management's review and analysis of the GM Loss Contracts were formally presented to Delphi's Board of Directors. On March 29, 2006, the Board ratified the decision to seek authorization from this Court to reject the GM Loss Contracts, based on all of the considerations summarized above.

Applicable Authority

59. Section 365(a) of the Bankruptcy Code provides:

(a) Except as provided in sections 765 and 766 of this title and in subsections (b), (c), and (d) of this section, the trustee, subject to the court's approval, may reject any executory contract or unexpired lease of the debtor.

11 U.S.C. § 365(a). Other than requiring Court approval, Congress prescribed no guidelines limiting a debtor's discretion to reject the kind of executory sales contracts at issue in this Motion.

60. The Supreme Court has recognized "the traditional 'business judgment' standard applied by the courts to authorize rejection of the ordinary executory contract" under section 365(a), and it cited the Second Circuit's decision in In re Minges, 602 F.2d 38, 42-43 (2d Cir. 1979), as an example of the articulation of that standard. NLRB v. Bildisco and Bildisco, 465 U.S. 513, 523 (1984). In re Minges, in turn, mandates a "flexible" standard requiring only that the debtor exercise its discretion in the best interests of the estate and its creditors. In re Minges, 602 F.2d at 42-43. See also In re The Penn Traffic Co., 322 B.R. 63, 68 (Bankr. S.D.N.Y. 2005) ("It is well established that the decision whether to assume or reject an executory contract under Section 365(a) is a matter of business judgment to be exercised in the best interests of the debtor in possession and its creditors.").

61. In all circumstances, the touchstone of the section 365(a) analysis is straightforward: "It is enough if, as a matter of business judgment, rejection of the burdensome contract may benefit the estate." In re Minges, 602 F.2d at 43 (emphasis added). Accord In re Sundial Asphalt Co., 147 B.R. 72 (E.D.N.Y. 1992).

62. The purpose of section 365(a) of the Bankruptcy Code is to give the debtor the opportunity to go through its inventory of executory contracts and decide "which ones would be beneficial to adhere to and which ones would be beneficial to reject." Orion Pictures Corp. v. Showtime Networks, Inc. (In re Orion Pictures Corp.), 4 F.3d 1095, 1098 (2d Cir. 1993). When debtors do so in a reasonable manner and in good faith, courts generally approve the debtor's decisions. See In re G Survivor Corp., 171 B.R. 755, 757 (Bankr. S.D.N.Y. 1994) ("Generally, absent a showing of bad faith, or an abuse of discretion, the debtor's business judgment will not be altered.").

63. In Orion Pictures, the Second Circuit stated that a bankruptcy court should "apply its best 'business judgment' to determine if it would be beneficial or burdensome to the estate" to reject or assume the contracts. In re Orion Pictures Corp., 4 F.3d at 1099. The Orion Pictures decision also cautions: "it is important to keep in mind that the bankruptcy court's 'business judgment' in deciding a motion to assume is just that —a judgment of the sort a businessman would make." Id. at 1099. In other words, the Court "sits as an overseer of the wisdom with which the bankruptcy estate's property is being managed by the trustee or debtor-in-possession" Id.

64. The vast majority of courts recognize that the business judgment standard is not a strict standard and presents a "low threshold" for the debtor to meet. See In re The Penn Traffic Co., 322 B.R. 63, 68 (Bankr. S.D.N.Y. 2005); Lubrizol Enters., Inc. v. Richmond Metal Finishers Inc., 756 F.2d 1043, 1047 (4th Cir. 1985) (collecting cases); In re W&L Assoc., Inc., 71 B.R. 962, 966 (Bankr. E.D. Pa. 1987) ("We do not consider the 'business judgment test' to be a strict standard to meet"); In re Fashion Two Twenty, Inc., 16 B.R. 784, 787 (Bankr. N.D. Ohio 1982) ("The less rigid 'business

'judgment' is favored by most Courts and is adopted as the proper standard herein."). "More exacting scrutiny would slow the administration of the debtor's estate and increase its cost, interfere with the Bankruptcy Code's provision for private control of administration of the estate, and threaten the court's ability to control a case impartially." Richmond Leasing Co. v. Capital Bank, N.A., 762 F.2d 1303, 1311 (5th Cir. 1985).

65. The Second Circuit's Orion Pictures decision also instructs that proceedings on a motion under 11 U.S.C. § 365(a) should be streamlined, consistent with the statutory purpose of allowing a debtor-in-possession to manage affairs efficiently in the best interests of the estate:

At heart, a motion [under Section 365(a)] should be considered a summary proceeding, intended to efficiently review the trustee's or debtor's decision to adhere to or to reject a particular contract in the course of the swift administration of the bankruptcy estate. It is not the time or place for prolonged discovery or a lengthy trial with disputed issues.

Orion Pictures, 4 F.3d at 1098-99.

66. Courts have recognized that there are myriad reasons why a debtor might determine, reasonably, that the rejection of a contract "may benefit the estate," including, among other things, that: (a) the contract is uneconomical to complete according to its terms, (b) the contract is financially draining to the estate, and (c) rejection will make the debtor more attractive to a prospective purchaser or investor. See In re Riodizio, 204 B.R. at 425; see also In re G Survivor Corp., 171 B.R. at 758 (listing possible factors).

67. It may also be appropriate for the debtor to conclude, under the circumstances, that rejection of a contract may benefit the estate by allowing the debtor to

renegotiate contract terms and enter into a more profitable contract, even with the same contract counterparty. See Brotherhood of Railway, Airline and Steamship Clerks v. REA Express, Inc., 523 F.2d 164, 169 (2d Cir. 1975) (noting practical effect of allowing rejection was to force debtor and counterparties to renegotiate their rights); In re Metro Transp. Co., 87 B.R. 338, 344 (Bankr. E.D. Pa. 1988) (granting rejection and noting that "the Debtor may renegotiate very similar agreements with the [same non-debtor counterparties], eliminating terms that are particularly onerous to the Debtor."); see also Sharon Steel Corp. v. Nat'l Fuel Gas Distrib. Corp., 872 F.2d 36, 39-40 (3d Cir. 1989) (affirming approval of rejection motion where rejection would permit debtor to receive fuel from the same counterparty at a lower rate); In re Wheeling-Pittsburgh Steel Corp., 72 B.R. 845 (W.D. Penn. 1987) (debtor properly rejected contract with utility company to enter into another contract with same utility at lower rates).

68. Here, the Debtors have exercised their sound business judgment in determining to reject the GM Loss Contracts. The Debtors have established that the GM Loss Contracts are severely unprofitable as a whole. The Debtors have also determined that there is no reasonable alternative to rejection because negotiations with GM have not resulted in a timely resolution and the status quo is untenable. In exercising their discretion under section 365 of the Bankruptcy Code to reject the GM Loss Contracts, the Debtors determined, with the assistance of their financial advisors, that the onerous obligations imposed on the Debtors by the GM Loss Contracts were, and continue to be, a significant factor contributing to Delphi's negative financial condition.

69. The Debtors have undertaken their decision to reject the GM Loss Contracts in a rational, analytical manner. The Debtors and GM have been at the

negotiation table for months and have been unable to reach a consensual resolution to issues surrounding both the GM Loss Contracts and certain labor issues. The Debtors have made an informed business judgment to shed the burdensome obligations of the GM Loss Contracts with the goal of renegotiating equitable terms with GM.

70. Nor will rejection prejudice unsecured creditors by generating large unsecured damages claims from GM. As an accommodation to GM, the Debtors are prepared to continue to ship the parts associated with the GM Loss Contracts under reasonable and equitable price terms. See In re National Steel Corp., 316 B.R. 287, 305 (Bankr. N.D. Ill. 2004) (denying creditor's motion to recover administrative claim when debtor-in-possession increased price term of prepetition supply contract with creditor and continued to ship product to creditor). The Debtors have no intention to cause GM any undue hardship.

Notice

71. Notice of this Motion has been provided in accordance with the Supplemental Order Under 11 U.S.C. §§ 102(1) And 105 And Fed. R. Bankr. P. 2002(m), 9006, 9007, And 9014 Establishing Omnibus Hearing Dates And Certain Notice, Case Management, And Administrative Procedures entered by this Court on March 17, 2006 (Docket No. 2883). Notice has also been provided to GM as counterparty to all of the GM Loss Contracts. In light of the nature of the relief requested, the Debtors submit that no other or further notice is necessary.

Memorandum Of Law

72. Because the legal points and authorities upon which this Motion relies are incorporated herein, the Debtors respectfully request that the requirement of the

service and filing of a separate memorandum of law under Local Rule 9013-1(b) be deemed satisfied.

WHEREFORE the Debtors respectfully request that this Court enter an order (a) authorizing the Debtors to reject the GM Loss Contracts in accordance with the procedures set forth herein and (b) granting the Debtors such other and further relief as is just.

**NOTICE OF REJECTION OF CERTAIN CONTRACTS  
WITH GENERAL MOTORS CORPORATION**

1. **ORDER APPROVING REJECTION OF CONTRACTS**

On May •, 2006, the United States Bankruptcy Court for the Southern District of New York entered an Order Under 11 U.S.C. § 365 And Fed. R. Bankr. P. 6006 Authorizing Rejection Of Certain Executory Contracts With General Motors Corporation (the "Order," a copy of which is attached hereto as Exhibit 1). The Order authorized the above-captioned debtors and debtors-in-possession (the "Debtors") to reject the contracts (the "GM Contracts") listed on Exhibit A to the Order. Pursuant to the Order, the Debtors hereby serve notice of the rejection of the contracts listed on Exhibit 2 hereto.

2. **REJECTION DATE**

The rejection of the GM Contracts shall become effective on [•] (the "Rejection Date").

3. DEADLINE TO FILE PROOFS OF CLAIM

General Motors Corporation shall have until the later of the general bar date established in these cases for filing prepetition general unsecured claims or 30 days from the Rejection Date to file a proof of claim for damages arising from rejection of any contract listed on Exhibit 2. Any claims not timely filed will be forever barred.

Dated: New York, New York  
•, 2006
